

Research project 2007/2008

Rectorate

"Visit at the Book Fair for procurement with research book titles"

Coordinator Diturije Ismaili

Advisor Mustafa Ibrahim.

Result: Titles of new books from Book Fair "Tirana 2008"

Scientific literature is an inevitable condition for the conduct of research in any field of science, especially social ones.

Fairs are the source of where research institutions are equipped with basic and ancillary literature that gives ginger, and weight to the scientific work. Scientific search, so books (textbooks) research is equal to the master without tools.

By the parameters considered of the Relational Research Office and based on contacts with publishing houses in the region, were provided with the data that nearly 200 titles of books for young people this year and also occurred that the Library "Max van der Shtul" was fit with 240 new titles of books that you will especially serve students of secondary and third studies.

Title: Research on the treatment of prisoners, members of ethnic communities in 2 (two) prisons in Macedonia

Subject area: Human rights, treatment of specific persons (prisoners) in specific institutions (prisons), Human Rights issues, criminal law and procedure issues, criminology and penology issues.

Main objectives: Project's main objective is to create a scientific article on the mentioned topic, based on the specific research methodology, practical information and true facts, through a devoted research, gathering and analysing of first hand information. The aim is to analyze the existing situation on this issue and to give ideas on it's improvement
